

**Learning Community Questions 1**

Review the highlighted questions in the collection of Question Cards given to your group. Correct grammatical mistakes and spelling errors. Improve the rigor of the question by rephrasing “detail questions” to generate “conceptual questions.” Rewrite open ended essay questions as multiple choice, true or false, or fill in the blank questions. Finally, provide the correct answer.

Each question and answer set is worth 1 point. The instructor will choose from your improved questions when building the quiz on Moodle.

The questions you write, and thus, Quiz 1, will cover the following topics:

- |                              |                             |                               |
|------------------------------|-----------------------------|-------------------------------|
| MLA Citations                | Sappho                      | Women’s Magic vs. Submission  |
| Approaches to Art            | Ancient women               | Reasons women joined convents |
| Art historical methodologies | Medusa                      | Illuminated Manuscripts       |
| Mother Goddess               | Sexism                      | Hildegard of Bingen           |
| Woman of Willednorf          | Heterosexism                | The Scivias                   |
| Venus Figures                | Eurocentricism              | Christne de Pizan             |
| Catal Huyuk                  | Patriarchy                  | Guilds                        |
| Isis                         | The Phallus                 |                               |
|                              | Public vs. Private Property |                               |

**Community Member Roles**

- Leader - ensures that everyone in the group contributes and is heard
- Task Master - insures that all members understand the goal and are focused on achieving it
- Coach - makes sure that questions and answers are grammatically correct and make sense
- Scribe - records questions and answers as they are discussed by the group
- Registrar - neatly writes question and answer pairs and submits for the group
