Worksheet #10
The Impact of Photography

Read the blog article, **Thirteen Photographs That Changed the World** - <http://www.neatorama.com/2007/01/02/13-photographs-that-changed-the-world/#!GBotQ>. The author compiles a list that decidedly favors photojournalistic approaches over fine art. The list has been hotly debated, with critics often citing additional images that they feel should have been included in the list. Create your own list of seven influential photographs. (If possible, print and paste the image on the table below.) Consider what you personally believe to be powerful, inspirational and influential about these works and whether you believe it is possible for a photograph or a work of art to change the world?
